Profile

Final-year Computer Science Engineer (AI & ML) with hands-on experience in Python, LLM integration, and AI application development. Built and deployed an offline document intelligence system using LangChain, FAISS, and Hugging Face Transformers during an internship at Hindustan Aeronautics Limited. Skilled in developing practical AI solutions with a focus on privacy, performance, and real-world usability. Complemented by strong leadership experience managing large teams and district-level initiatives through Rotaract.

Professional Experience

Hindustan Aeronautics Limited (HAL) — Trainee

Jul 2025 – Aug 2025 Korwa, India

- Built an **offline AI-powered PDF Question Answering System** using LangChain, FAISS, and Hugging Face Transformers, enabling secure document querying without internet connectivity.
- Implemented document ingestion with text chunking, semantic embedding, and similarity-based retrieval to support querying across large technical PDF documents.
- Deployed the system with a **Streamlit frontend and Flask REST API**, optimised for CPU-only hardware with limited resources.

Samtel Avionics — Research & Development Intern

Jul 2025 (3 weeks) Gurgaon, India

- Studied and documented **Display Head Assembly (DHA)** architecture including AMLCD/OLED panels, backlight units, and driver electronics for defence avionics systems.
- Assisted the R&D team in preparing technical documentation related to rugged display systems used in aerospace applications.
- Gained exposure to defence qualification standards including **EMI/EMC shielding** and thermal reliability requirements.

Projects

Offline AI-Powered PDF Question Answering System

Jul 2025 – Aug 2025

Stack: Python, Flask, Streamlit, LangChain, Hugging Face Transformers, PyPDF2, pdfplumber, PyMuPDF, FAISS

- Built a fully **offline, privacy-first** document QA platform for aerospace and defence environments where internet access is restricted.
- Implemented multi-document ingestion with automated chunking, semantic embedding, and similarity-based retrieval for context-aware answers across multiple PDF documents.
- Delivered a **dual-interface solution** — Flask REST API backend with a Streamlit GUI — enabling non-technical users to query complex technical documents without manual searching.

AI-Based Fraud Management System (Aadhaar UID Verification)

Jun 2025 – Jul 2025

Stack: Python, OpenCV, Tesseract OCR, TensorFlow, REST API, MySQL

- Developed an end-to-end fraud detection pipeline to **extract, classify, and validate** Aadhaar card details using OCR, object detection, and document classification models.
- Designed a **dual-layer authentication system** combining operator credential verification with secure API-based backend validation against the UIDAI schema.
- Handled varied Aadhaar card inputs including **different print qualities, orientations, and formats** to ensure robust real-world performance.

Technical Skills

Languages: Python, C++, Java, SQL, HTML/CSS

AI / ML: Machine Learning, NLP, LLM Integration, Statistics

Frameworks & Libraries: PyTorch, TensorFlow, LangChain, Hugging Face Transformers, Flask, Streamlit

Databases & Storage: MySQL, FAISS Vector Database

Developer Tools: Git, VS Code, Google Colab, Jupyter Notebook, PyMuPDF, pdfplumber

Education

Galgotias College of Engineering and Technology — *B.E., Computer Science Engineering* 2022 – 2025 Greater Noida, India
(AI & Machine Learning)

- Ranked in the **top 10%** of the graduating cohort.
- Relevant coursework: Low Level Design(LLD), Machine Learning, Computer Networks, DBMS, OOPS, Operating System Algorithms, and Statistics.

Certifications

- **Deloitte Australia Data Analytics Job Simulation** — Forage, Aug 2025
- **OneRoadmap Data Analytics Specialisation** — Aug 2025

Achievements & Leadership

- **Director of Photography Services — RaC GEI (Rotaract District 3011):** Appointed as the official Director of Photography for Rotary Year 2024–25, leading visual documentation and storytelling for all club events, ensuring every moment is preserved with **artistic precision and creative intent**.
- **District Photographer — Rotaract District 3011 (Delhi NCR):** Served as the official district photographer, building the **district media archive** across flagship events including Navyug Installation, The Albus Assembly, Antarang (Mega LHE), Delhi Dekho (MDYE), and All Wizard Arena 3011 — receiving recognition from the DRR and district leadership for creativity and dedication.
- **Cam-Circle Club Head — Galgotias College:** Led a cross-functional photography and media team of **150+ members**, directing visual storytelling for major institutional events and social media campaigns.
- **Former Convener, Student Innovation Cell:** Organised ideathons, hackathons, and innovation workshops, fostering a culture of entrepreneurship and technical problem-solving among 500+ students.
