

SHREYAS Srivastava

+91-7523083176 | sreyash8598@gmail.com | github | linkedin.com/in/shreyas-srivastava/

PROFILE

AI/ML-focused Computer Science graduate skilled in Python,C++, LLM integration, and full-stack development. Experienced in building secure offline AI systems, optimizing model performance, and developing defense-grade solutions for aerospace applications

EDUCATION

Galgotias College Of Engineering

Greater Noida, India

Bachelor of Engineering in Computer Science Engineering (AIML)

2022 – 2025

- Among the top 5% of the batch
- Relevant coursework in [Data Science, ML, Computer Networks,DBMS.]

SKILLS

Technical: C++,Java,SQL, Python, Statistics, ETL, HTML/CSS, AI Automation, Machine Learning, NLP

Tools: PyTorch, TensorFlow, Flask, Git, Cassandra, MySQL, VS Code, Colab, Jupyter

CERTIFICATIONS

- Oneroadmap Data Analytics Specialization – Aug'25 ([link](#))
- Deloitte Australia Data Analytics Job Simulation – Aug'25 ([link](#))

EXPERIENCE

Samtel Avionics

Gurgaon, India

Research And Development Specialist

July'25 – 3 weeks

- Designed and analyzed Display Head Assembly (DHA) architecture encompassing optical bonding, AMLCD/OLED panels, backlight units, driver electronics, and thermal management for rugged defense applications
- Engaged in strategic partnerships with major clients such as Indian Air Force, Indian Navy, HAL, Thales Group, and BEL, contributing to projects like Su-30MKI and Mirage-2000 upgrades
- Ensured EMI shielding and reliability under harsh conditions

Hindustan Aeronautics Limited

Korwa, India

Trainee

July'25 – Aug'25

- Developed an offline AI-powered PDF Question Answering System integrating Large Language Models (LLMs)
- Optimized local LLM deployment with techniques such as model quantization, embedding caching, and memory management for efficient performance on limited hardware

PROJECTS

Offline AI-Powered PDF Question Answering System

July' 25- Aug' 25

- Offline operation for security and privacy in aerospace environments,Multi-document querying and context-aware question answering
- Python 3.8+, Flask backend, Streamlit frontend, LangChain framework, Hugging Face Transformers, PyPDF2, pdfplumber, pymupdf, FAISS vector database

AI-Based Fraud Management System (UID Aadhaar)

June '25- July'25

- Extracted and validated Aadhaar details using OCR, classification, and object detection models.
- Implemented operator authentication and secure API-based backend validation.

ACHIEVEMENTS

- Led the Photography team of Galgotias University [comprising](#) of 150+ members, covering major promotional events and executing trending social media campaigns
- Former Convener of the Student Innovation cell.
- District Administrative Council (Rotract District-3011) ~ Head of 176 clubs (Delhi Ncr)
- Social Media Head at Galgotias University; boosted engagement by 55% and created the university's first reel to surpass 100K+ views
